Office of the Senior Surgeon, Mysore Gt.

Dated Bangalore, 6th July 1920

No.c.35.

Official Memorandum.

During the inspection of the Lunatic Asylum on the morning og the 3rd instant, it was npticed that there was no temperature chart or diet sheet in the in-patients' wards. This deficiency requires to be explained.

---

No.C.37.

The Superintendent, Lunatic Asylum, is requested to at once indent on the Medical Stores for the supply of a microscope with necessary reagents and to examine all new cases admitted into the Asylum, for hook-worm. All examinations for amoeba, etc., in cases of dysentery or diarrhoea that may occur in the Asylum ought to be undertaken in the Asylum itself.

Notes of inspection of the Maternity Hospital, Bangalore, by the Senior Surgeon, on the 6th July 1920

---

There was nothing ready in the wards till 8-30 A.M. A solitary woman, presumed to be a nurse, was walking with a baby. The Medical Officer will please see that the wards are ready for work by 7 A.M.

The Indian Labor Ward was very dirty. There was no steriliser working in the hospital. This is very serious. All the lotion bottles were empty. They looked as if they were never used. The Lady Medical Officer will see that the lotions are made every day in the Compounding room and hold the Assistant Lady Medical Officer responsible for it. The medical store must be put in charge of the Assistant Lady Medical Officer at once. The Lady medical Officer, be in charge of the hospital linen till a Matron is appointed.

The Indian Nurse who was in charge of the European Labor Ward said that she had carbolic lotion in a tray, with wipers. This on crucial test was found to be false. She should be fined Rs.2/-. The Lady Medical Officer will apply for a proper steriliser from the Medical Stores. Out of the grant for linen she will get at least 24 coats for the nurses to wear in the labor ward

The Operator and her Assistant will always wear gloves If gloves are not in stock, they should be got on application to the Stores. Case sheets should be obtained and the history of every case recorded. Students should be put in charge of the wards and Mrs. Isaac should be made solely responsible for the wards. Operations will be undertaken alternately by the Medical Officer and the Assistant Lady Medical Officer.

All the bottles with drugs and stock mixtures and clean lotions should have printed labels and not dirty paper labels. It is hoped that the Lady Medical Officer will supervise the working of the hospital instead of taking up all the duties herself. She will pay particular attention to the sanitation of the latrines. All broken bottles and irrepairable stores were

found

To Dewan Sri,

With reference to your D.O. letter No. G.C 10 dated the 8th July 20 forwarding copies of your notes of inspection of certain Medical Institutions (in Bangalore), I am directed to state that the remarks pertaining those relating to the Victoria Hospital are by no means complimentary to the Medical officers concerned. ~~and~~ They therefore ~~have~~ observe a strict line

over.

which, by the means
for the satisfactory & which it.
I hoped will remain due attention at his hands & his
medical to prevent the hospital.

Yours truly
